Summary:

Professional web-developer with advanced knowledge in various Web based programming languages. Currently seeking an environment that fosters increased learning and allows personal growth. An environment where I can contribute to the success of your business by solving your everyday business challenges. Great listening ability and team player who deliver highest quality in meeting your business needs. My various programming development includes but not limited to Html, CSS and JavaScript that will be best served in resolving work solutions. I am well versed to communicate and be a team player who can deliver the best resolution to your business needs.

Work Experience:

- **Web Solutions - Web-Developer** December '15 – Present
East Brunswick, NJ.
 - Specialized in, or is specifically engaged in, the development of World Wide Web applications, or distributed network applications that are run over HTTP from a web server to a web browser.
 - Founder and owner of Web Solutions.
 - I created my own website, using CSS, HTML, and JavaScript. A website that attracts people and helps people understand part of what I can do on my own. I wrote my own codes, designed my own graphics, and used external scripts to come up with something fabulous and very organized
- **J. O'Brien Security Solution – Junior-Web-Developer** August '15 – August '16
Springfield Township, NJ **Front-End Web Developer & SEO Specialist** August '16 – Present
 - Maintain website, create new pages, and develop solutions for issues as they arise.
 - Experienced in HTML, CSS, JavaScript/jQuery, Responsive design, Bootstrap framework or similar CSS responsive design framework
 - Respond to immediate changes to Websites as requested by the business teams and technical programming. Website responsive design and UI/layout coding with front-end functionality. Modify and design images to match the layout of the website.
 - Using my strong knowledge in SEO to rank the company's pages higher in google and other search engines. Along, with strong knowledge with Google Dashboard (analytics, campaigns, webmaster, blogs, etc).
- **The Tree of Health Center - Internship Web-Developer** March – May '15
Newton, NJ.
 - Create visibly engaging websites that provide users with pleasant and clear exploration.
 - Provide create coding, design and modify website design from concept layout to function and according to employer's specifications.
 - Utilize latest HTML5, CSS, and JS techniques to produce highly-performant, informative, and beautiful user experiences for clients.
